LAMBOO INC. CREATING JOBS IN ILLINOIS

Lamboo Opens New Location in Alton ILL.

Springfield –

Lamboo, Inc. opened its doors in Alton IL August of 2009, creating a central location for processing and logistics right in the middle of the Midwest. This new location allows Lamboo to have ease of transfer from its Mexico and Central and South American Importers, to the South port of Louisiana, up the Mississippi to Alton. With the new logistical processes in place Lamboo has not only created jobs for processors, but for transporters as well. It has teamed up with many logistics companies for the shipping across the United States, allowing for quicker turnaround time and saving gas for its transporters.

Lamboo as an environmentally responsible company is trying to streamline its process to save resources for the United States and its consumers. Being located in the Midwest is only one step Lamboo is taking to ensure new jobs are created in this down economy. Being the leader in the structural bamboo industry, Lamboo is always looking for new and innovative ways to provide the best possible products and services.

Lamboo, Inc. is an environmentally responsible company that enjoys giving back to the community. Its support for local companies and all of their other ventures makes Lamboo, Inc. as sustainable as its products.
