GENERAL MAINTENANCE AND CARE FOR COMPOSITE PRODUCTS

PRODUCT LINES:

1. LAMBOO® LAMBOOFUSION™

PURPOSE: The purpose of this document is to provide general maintenance and care recommendations for Lamboo's composite products.

GENERAL MAINTENANCE AND CARE INFORMATION:

1. Avoid the use of rubber-backed mats, tarps, pool toys, and other non-porous items for an extensive period of time as these items may discolor the decking surface.
2. Be sure to clean any chemicals such as sunblock, insect repellent, candle wax, or other chemicals that may come into contact with the decking materials immediately to avoid any chemical reactions or discoloration of the decking.
3. Avoid dragging chairs, tables, grills, or other objects that could scar the face of the decking.
4. Use typical cleaners found in the market for composite decking materials. Decking materials can be easily cleaned with the use of a power washer set to the lowest setting (1,200 psi) and the user must start at least 18 inches away from the surface and work their way in until materials show signs of cleaning and no scarring occurs.
 - a. **NOTE:** It is recommended to test cleaners and power washing strength on scrap materials prior to using on finished products.
5. Ice and Snow
 - a. As with any walking surfaces, the decking materials may become slippery in winter weather. Take caution when walking on decking during these conditions.
 - b. For ice removal, most products containing calcium chloride can be used. Avoid using harsh or aggressive chemicals.
 - c. Do not use metal shovels or shovels with sharp metal edging on the decking materials. This will cause damage to the decking surface.
6. Review your decking and/or wall cladding products annually to ensure all fasteners or mounting clips are properly seated.
 - a. Due to expansion and contraction of composite materials, it might be required to tighten fasteners or clips from time to time. This is a natural occurrence with composite based products.

CARE AND MAINTENANCE UPDATES: Lamboo occasionally makes important updates to its care and maintenance documents. Please refer to Lamboo's website at www.lamboo.us to ensure you are referencing the most recent version of this document at the time of purchase.

For any questions in regards to care and maintenance of your Lamboo composite decking or wall cladding materials, please send all inquiries to admin@lamboo.us or contact Lamboo directly at 866-966-2999 to speak with a technical product specialist.
